

Protect 1

Express Canister

NEW

INHIBITOR

- ◆ Provides superior protection against scale & corrosion in closed-loop systems
- ◆ Helps reduce maintenance costs
- ◆ pH neutral

Clean 5

Express Canister

NEW

CLEANER

- ◆ Helps restore heat transfer area & fluid circulation in closed-loop systems
- ◆ Removes sludge and metal oxides
- ◆ pH neutral

AXI-THERM

QUICK & CONVENIENT CHEMICAL INTRODUCTION

- ◆ Suitable for all closed-loop system metals & gaskets
- ◆ 3/4" Garden hose swivel adapter
- ◆ Clear plastic tubing helps identify when dosage is complete
- ◆ Low concentration requirement
- ◆ Treats 33USG (125L) system volume

System Cleaners

Features and Benefits

Axi-Therm System Cleaners provide effective means to restoring and protecting the critical components within modern hydronic systems. Axi-Therm System Cleaners are suitable for all kinds of hydronic heating and cooling systems and provide energy savings by restoring heat transfer and water circulation to near original levels.

CLEAN 3 - NEW System Cleaner

Dosage: 0.5% system volume

Available in 500ml, 2L, 20L

Application: Circulate throughout entire closed loop system PRIOR to initial commissioning

Result: Treatment solution will help dissolve oil residue and metal oxides found in new installations

NEW

CLEAN 5 - OLD System Cleaner

Dosage: 0.5% system volume

Available in 500ml, 2L, 20L

New 300ml Express Canister

Express Dosage: 33USG (125L)

Application: Circulate throughout an established (old) closed loop system for up to 30 days

Result: Treatment solution will passively dissolve sludge and metal oxides found in older/established systems

CLEAN 10 - TOTAL System Cleaner

Dosage: 5-10% system volume

Available in 500ml, 2L, 20L

Application: Circulate throughout a troubled established closed loop system for up to 30 days

Result: Treatment solution will dissolve sludge, metal oxide & limescale found in poor performing systems

CLEAN BOILER - Boiler Water-Side Cleaner

Dosage: 10-20% boiler water volume

Available in 1L

Application: Powerflush through an isolated heat exchanger for up to 8 hours

Result: Treatment solution will dissolve metal oxide and limescale incrustations and reduce noise in heat exchanger

PROTECT 1 - Scale & Corrosion Inhibitor

Dosage: 0.5% system volume

Available in 500ml, 2L, 20L

New 300ml Express Canister

Express Dosage: 33USG (125L)

Application: Circulate Protect 1 throughout system; confirm dosage with P1-Test

Result: Provides energy savings by protecting against corrosion and lime scale. Safe for all metals.

System Inhibitor

NEW

Fire Side Cleaners

Axi-Therm unique combustion-side chemical treatment quickly helps clean and restore heat transfer area of condensing heat exchangers back to near new levels.

CLEAN F-STEEL
Combustion cleaner for STAINLESS STEEL heat exchangers
Available in 1L

Before

After

CLEAN F9-A
General combustion cleaner
Available in 1L

Before

After

CLEAN F9-AL
Two-step combustion cleaner for ALUMINUM heat exchangers
Available in 2 x 1L

Before
